

GlacierGrid Case Study

Customer Overview

Wenspok Companies is a growing Wendy's franchisee operating 67 locations across 10 states in the Midwest and Pacific Northwest. Headquartered in Spokane Valley, WA, Wenspok is committed to delivering high-quality guest experiences while maintaining efficient operations across a geographically dispersed footprint.

Working with GlacierGrid

Prior to implementing GlacierGrid's platform, individual locations managed HVAC and refrigeration manually, leading to inefficiencies.

By leveraging GlacierGrid's intelligent energy management solutions, Wenspok was able to achieve:

- ✓ **Automated HVAC control** to optimize comfort while reducing energy waste
- ✓ **Centralized oversight** that allowed corporate teams to ensure consistency across all locations.
- ✓ **Data-driven insights** to proactively manage energy efficiency and reduce operational costs.

"What sets GlacierGrid apart is their streamlined approach to savings. They take pride in the work, remain transparent throughout the process, and ensure that the final results aligns with our restaurant goals."

Richard Mann, Director Wenspok Companies
